

THERE'S NOTHING LIKE IT.

Pert, Pretty Della Fox Was "All Run Down"—Paine's Celery Compound Made Her Well.

There was never a remedy so highly recommended as Paine's celery compound.

There was never a remedy in such universal demand.

Because—

It makes people well!

Every one among the thousands who have seen Della Fox recognizes in her one of the established favorites on the comic opera stage of America.

She is one of the best singers now on the boards. She has a sense of pathos as well as a keen appreciation of humor, and as for deft and nimble dancing there is no star who can excel her.

Pert, chipper, vivacious, the very soul of motion, yet with every nerve and muscle under perfect control. Best of all, she is unique.

Everything that she does has the Della Fox "tang."

The life story of this celebrated artist and coming star is full of interest. It shows, too, how much common sense and pure grit can accomplish when combined with real ability.

She has worked her way up in her profession step by step with indomitable determination and a perseverance that nothing could discourage. With Conreid, with Hopper, and other managers she has won so many successes in so many cities that no artist in comic opera is better known throughout the country. "But I have had to work for it," she said to a reporter in New York the other day.

"You needn't think that an actress' life is spent upon a bed of roses. I love the stage dearly, and am very far from wishing to find fault, but indeed the life is more trying than people suppose."

"You see we go through life with a rush. I have no time for anything. Singing every night and rehearsing every day, with whatever time there may be left over spent in railroad cars—that is my yearly routine. Of course the result of this sort of thing is a severe strain upon the nervous system. The effort to identify one's self with the character upon the stage is very trying."

"I have frequently found myself, after a particularly successful engagement, so nervous that eating and sleeping seemed luxuries with which I had parted company forever, and I wondered if fame or fortune achieved at such a price were not too dearly purchased after all. Last summer I was particularly run down. The least thing frightened me, and I shrank from study with loathing."

"I was then in Washington, and the wife of a U. S. senator recommended to me a cure which she said had enabled her husband to bear up during the strain of the fierce debates in congress while the force bill was pending. I took it at her solicitation, and was rejoiced to find an almost immediate improvement. My spirit picked up, and at the end of two weeks the same old exuberant health with which nature blessed me had returned."

"I ate and slept as I had not done since I was a child, and I have never known since then an hour's inconvenience from nervous prostration. The medicine to which I owe so much is Paine's celery compound, and I have recommended it to all my stage acquaintances who have overtaxed their brains by too close attention to study, and all have experienced the same happy results as myself."

Paine's celery compound has made thousands of people well. It has saved thousands of women from nervous prostration. It has made the weak strong. It has cured where everything else has failed. Innumerable testimonials as to its wonderful value as a spring medicine have been voluntarily sent to Burlington, Vt., where it is prepared.

Paine's celery compound is the most remarkable remedy for the blood and nerves of the 19th century. It has been recognized and is today employed by the foremost physicians for curing kidney and liver troubles and all diseases due to nervous disorder, faulty nutrition and impoverished blood, producing results that seem little short of miraculous.

Paine's celery compound in the spring builds up the system, purifies the blood, regulates the nerves. The weak and worn-out soon find their frames invigorated, their spirits raised, and their strength renewed.

It makes people well! As a spring medicine it is as superior to all the ordinary remedies as strength is better than weakness.

YELLOW EVERYWHERE

Next Week the Equal Suffragists Will Be Here.

SUSAN B. ANTHONY AND OTHERS

Will Make Addresses at Hamilton Hall—A Great Week Promised.

The first equal suffrage mass meeting of the big state rally in Topeka, will be held at Hamilton hall next Wednesday evening. The hall will be decorated with flags and the bright yellow colors of the equal suffrage association. There will be an abundance of music.

The Morgan sisters, the Wyatt sisters and the Alhambra mandolin club will take part. The speakers will be entertained at the homes of the members of the equal suffrage association. These meetings will be open to the public and it is the wish of the association that the hall be filled, not only by those in sympathy with woman suffrage, but by those opposed to it.

Dr. Eva Harding, president of the Topeka Equal Suffrage association, said to a reporter: "Say in the JOURNAL that these will be non-partisan meetings and we want everybody, regardless of party, to come."

Mrs. L. O. Case, who is prominent in suffrage work, said: "I think it will be the largest suffrage meeting ever held in Kansas."

The ladies held a meeting at Music hall to make preparations for next week. It was proposed to advertise the meetings on the electric cars, but it was afterward voted down, as Ringling Bros. are going to advertise on the cars at that time, and some of the ladies didn't like the idea of putting their advertisement alongside of a circus advertisement. It was decided to use posters.

It doesn't seem to have occurred to the ladies that the best place to advertise their meetings is in the newspapers. A full page "poster" in the STATE JOURNAL would go into 5,300 families in Topeka and would be read by 15,000 people at least. If that doesn't beat sticking up posters on bill boards, what does?

A committee was appointed to decorate the hall appropriately for the meeting. A motion was adopted requesting every member of the association to wear the badge representing equal suffrage—the yellow ribbon, and also asking all others in sympathy with the cause to wear it.

The time worn subject whether the association should be non-partisan was brought up again for discussion. One member said that she thought every lady should belong to some party. This started quite a spirited discussion.

It was suggested that after the women got the right to vote, that they could then choose a party, but that until then, it was best to be non-partisan. The question of the selection of members for the committees to visit the different political county conventions provoked a warm discussion. Some thought that only Republican ladies should visit Republican conventions, Populists, Populist-conventions, Democrats, Democratic conventions. The majority however, thought women best fitted and who would have the most influence should be selected.

The committee appointed to solicit funds to defray the expenses of the mass meeting at Hamilton hall, as yet, has been very successful. The hall rent will be \$40 and the other expenses will be about \$19. This money is to be solicited from the citizens.

The ladies wish to call especial attention to request that all attend wear the badge of the association. They say they would be pleased to have the men wear the yellow ribbon also.

Let us remind you that now is the time to take De Witt's Sarsaparilla, it will do you good. It recommends itself. J. K. Jones.

SOCIAL AND PERSONAL.

Items of Interest About Topeka People and Visitors in Town.

In spite of the rain last evening about forty young people gathered at the home of Miss Jessie Shellabarger and amid the light flowers and music the elements were forgotten in the pleasure of the hour.

After a few words of explanation the hostess led the way to the library where the young men found in a large frame the pictures of their fair partners taken from the age of eight months up to four years, and were supposed to guess the original. As most of them bear no resemblance whatever to the girls at the present time, the task was not an easy one, and after a great deal of wondering Ralph Valentine was given the prize for having been able to recognize the most.

The remainder of the evening was spent in dancing and the parlor, library and hall were thrown open to the guests, and were prettily decorated with the flowers of the season, lilies and carnations.

Mrs. Rowley Entertains.

Mrs. H. K. Rowley entertained a party of ladies at a thimble party yesterday afternoon, and although the unpropitious weather interfered somewhat, the afternoon's pleasure was but slightly marred.

The mantels were banked with snow-balls and tall vases in the corners were filled with them, while graceful long-stemmed carnations drooped from crystal holders. During the afternoon Miss O'Brien played several selections on the piano, and the ladies were seated at small tables for luncheon.

Notes in Society Circles.

Mrs. Fred Temple and baby have returned from Seattle, Wash., where they have been for the past eight months.

Mrs. Charles Blood Smith is quite ill. Mrs. T. S. Hand will arrive next week to visit her parents, Mr. and Mrs. A. B. Whiting.

One of the engaged couples have rented a house on Van Buren street, which they expect to occupy in June.

Mrs. Geo. Smith has returned from a visit in Council Grove.

Mr. and Mrs. James L. King were surprised on Thursday by a party of friends who came in and spent the evening informally.

Mrs. P. I. Bonebrake entertained about twenty-five ladies at tea last evening.

Mr. J. H. Wetherell will give his closing reception Friday evening, May 11.

Mrs. A. R. Lingafelt will entertain the whist club next Tuesday afternoon.

Mrs. W. Littlefield spent yesterday in Kansas City.

J. B. Clay and T. R. Hopkins attended the party in Lawrence last evening.

Mrs. L. M. Scammon has gone to Lexington, Mo., to live.

An Agreeable Surprise.

Mr. Joseph Hornby was given a pleasant surprise Thursday evening at his home, 110 North Kline street, in honor of his fifty-first birthday. Music and dancing were the amusements of the evening.

His friends brought with them a reminder of the occasion in the form of a nice gift. Those present were Mrs. Hornby, Mr. and Mrs. Smith, Misses Lotie and Bertha Hornby, Cora Smith, Jennie Suttle, Mary McKenna, Edith Wingard, and Minnie Sherman; Messrs. Ed Harvey, Jerry Dustin, Geo. Richter, John Mattingly, Chas. Bigler, Fred Lyman, and Dan Kertzer.

General Social Notes.

Mr. C. B. Miner of Clinton, Ia., is visiting his son, C. M. Miner, on Jackson.

KNOWS A GOOD THING.

Dr. Roby Advertises and Says That is Pays.

To the Editor of the State Journal. Sir:—In your paper of Thursday occurs this paragraph: "A few years ago a fight was made by this society on Dr. Roby and on Munk, Mulvane & Munk, because they advertised, and this society compelled them to quit." I don't know what fight may have been made on Mulvane, Munk & Mulvane, but I do know that no fight was ever made on me.

I have had my business card in most of the Topeka papers most of the time for fifteen years, and a portion of that time in other papers in various parts of the state. I have paid the newspapers a snug little sum in that time for acquainting the public with the fact that I am a doctor, and doing business at the capital of Kansas.

I do not ask any of my competitors' permission to advertise, nor their advice about the form or extent of my advertising. Every doctor and other business man is in duty bound to help support the newspapers in his community, and I hope I have done my full share of it. In return the newspapers have all treated me very kindly and generously, a fact which I fully appreciate. And their bill collector is always a welcome guest at my office, albeit I sometimes have to say to him "come again."

Dr. Hibben's Essay.

At the meeting of the Kansas Medical society in this city Dr. J. B. Hibben, of Topeka, read a paper on sanitation which should become common property. Assuming that to prevent disease and epidemics by sanitation was far better and much more profitable than cure. Dr. Hibben gave a practical treatment of the subject that should be placed within the reach of the residents of every city. Holding that cleanliness and diseases were antagonistic, the latter can be defeated by the former every time trial is made, disease be lessened, and human life prolonged. The paper will be printed by the society in the proceedings of the society.—Atchison Champion.
